

Northwest Community Radio Summit

Sept 15-17, Capitol Hill Arts Center, Seattle

The founding summit of the NW Community Radio Network was organized by Reclaim the Media and KBCS. Participants representing dozens of community stations from Alaska, B.C., Washington, Idaho and Oregon spent a productive weekend sketching out network visions, goals and governance structures as well as making plans for collaborative radio production projects, an online content-sharing system and other concrete steps forward. Featured guests included keynote speaker Amy Goodman, long-time community radio organizers Jeremy Lansman and Sharon Maeda, and local grassroots hip-hop artists who are working together to form their own network.
